

**THIS PAGE DISPLAYS THE EXCLUSIVE OPTIONS CONTAINED IN THE SOFTWARE AND AVAILABLE IN A FEW CLICKS.  
THESE TEXTS ARE USED EXCLUSIVELY FOR ADVISORY PURPOSES.**

- *LANGUAGE TRANSFER: (FRENCH/ENGLISH AND VICE VERSA)*

View the project from which you want to change the language. Tap the arrow at the top right of the page. The software transfers you to a new page. Choose the desired language and tap LOG IN at the top right of the page and follow the path to log in again. The software to modify the language of your project

- *CALCULATED PLAN REUSABLE AT WILL:*

The multiple reuse of the same project on other sites reduces to almost zero the estimate of the calculation of these future projects:

1 project = 1 estimator = 1 project director  
10 identical projects = 0 estimator and no cost = 1 Director for each project

- *SELECTION OF STEPS FOR PROJECT FORMATION:*

In the "FOUNDATION" step option enter the length and width of the foundation following the instructions of the software. This action activates the software which transfers purchase orders for each product category of materials and labor for the foundations, floors, ceilings and exterior walls of all the selected floors of the project to the suppliers.

- *ALLOCATION OF LOCAL PROJECTS:*

The TERRAIN options integrated into the software manage the costs not displayed at the start due to the ignorance of its location. By activating the options chosen by the user, the software uses this new information and determines the excavation of the foundation, the import or export of soils, landscaping, parking lots, utilities, professional services, taxes and other products brought to this new site.

- *RECEPTION OR DISTRIBUTION OF EXISTING PROJECTS:*

Order a plan statement (e.g. House, Duplex, Triplex or others) and reproduce it on your site. The user installs the project on known land and incorporates the excavation products (e.g. Water Inlet, Lawn, Parking lot, Excavation and others), confirms his choice of products (e.g. Bricks or Aluminum) and activates if needed his house price list. Using a report, the software via the internet sends a financing request to a banking institution and distributes the purchase orders for the project to each supplier.

- *SALES INCREASE:*

The software contains all the products of the project (EX: Soundproofing, Exterior cladding, Gypsum, Cabinets etc.), their quantity, their prices, their location and their category of suppliers allows the material centers to guide their customers on these unavailable products.

- *TRANSFER OF PRODUCTS:*

The supplier electronically transmits the details of the prices of these products to the user and receives in return from the latter the orders containing the quantity of products, their price, their location, the date and address of delivery.

- **ADJUSTABLE PRODUCTS:**

Upon receipt of a project and with the help of a few clicks, all material and labor products of the project can be added, removed or modified according to the options chosen by the user.

- **TUTORIALS AND VIDEOS:**

The software tutorials display instructions to follow throughout the learning process and give you access to (+/- 50 videos) demonstrating the installation method of these products (Ex: Mineral Wool, Tar, Gypsum, Paint, etc.) at each stage of the project and more.

- **PROJECT FINANCING:**

In search of financing, the software sends a complete and detailed report of the project plan statement to financial institutions.

- **SUBMISSION:**

Proposal of a quote from a supplier in lieu of the detailed compilation of all project products calculated by the software

- **PURCHASE ORDERS:**

Displays by default all purchase orders using the master price list integrated into the software and updated daily. The master price list modified by the user and adjusted by different suppliers forms a local price list displaying new prices for the project.

- **PRICE LIST:**

The regularly updated software master price list is included by default in any new project received in order to keep product prices and project costs up to date. The in-house price list replaces the official software list by integrating the new prices into the project and stops the counter for this project.
