THIS PAGE TEACHES THE DIFFERENT ESTIMATION PROCEDURES TO PRODUCE A PLAN STATEMENT.

ESTIMATE GUIDE

- CONCEPT:

Allow estimators to produce a plan statement using videos embedded in the software and on-screen comments indicating the direction to follow for this production.

- GENERAL PLAN ESTIMATE GUIDE:

Allow a subscriber to answer the various questionnaires of the software using the tutorials displayed to produce complete plan statements and display by default all the detailed reports of the prices of the products and the default drafting of the purchase orders intended for each supplier of the project.

- TRAINING OF ESTIMATORS AND PROJECT DIRECTORS:

Allow amateur or professional estimators to produce a plan statement using videos integrated into the software. The software also displays comments indicating the instructions for completing each plan statement.

- TRAINING VIDEOS:

This software gives access to +/- 50 videos teaching the installation of different project products (Ex: Gypsum, Division, Cabinets and others).
